The contact centre agents will require your vehicle registration number and will dispatch a recovery team to locate the vehicle, if necessary.

LOG-BOOK

Our vehicle tracking service includes an electronic logbook.

If you are registered as the regular driver, you will receive a log-book link via e-mail.

The link will take you to a report displaying the previous week's trips, you will be able to confirm if the trip was either private or business.

We recommend that you create points of interest (POI) against all business trips.
